STORYBOOK CREATIVE DANCE is an early child education enrichment program that comes to your school each week. Our high energy classes help your preschooler focus on developing fine motor skills, expressing creativity, coordination, muscle development, strength building, socialization, counting, balance, and rhythm through a fun learning environment. In our classes, students learn all styles of dance including ballet, hip hop, tap, and Jazz. We engage them with exciting props such as puppets, ribbons, Maracas, Scarves, bean bags and so much more. For your school, we offer Ballet and Creative dance class (40 min).
